 X Left joystick
 Y Directional pad (D-Pad)
 Z TURBO button
 AA Right joystick
 AB R1 button
 AC R2 button
 AD L1 button
 AE L2 button
 AF USB-C connector

How to use the product

- Connect the receiver to a USB port on your console or computer. The adapter will automatically install on your system.
- Turn the controller on with the switch on the bottom of the device to the ON position. If the controller does not light up, it is not charged. Connect the device with the cable from the set to a free USB port on your computer, console or USB charger.
- After connecting the receiver to the computer or console and turning on the charged controller. The green LED in the adapter should be on continuously. If the LED flashes, hold down the HOME button on the device for about 8 seconds. The controller will automatically connect to the receiver.

Additional Features (Bottom)

 G HOME button

Changing the mode to X-INPUT / D-INPUT

The mode change function is available only on PC!

- Press and hold the HOME button for about 8 seconds.
- If the controller is detected in the control panel as "USB GAMEPAD", it works in D-Input mode.
- If the controller is detected in the control panel as "Controller (XBOX 360 for Windows)", it is working in X-Input mode.
- In the case of the console, the controller is automatically detected as D-Input.
